 - Lesson planning and progress tracking
 - Interactive and engaging teaching style
 - Use of tools like Zoom and Google Meet
-

Tools & Platforms

- VS Code
 - Figma
 - Zoom
 - Google Meet
 - Microsoft Teams
 - Google Docs/Slides
 - Desmos
 - Khan Academy
 - Canva
 - Notion & Trello (for organizing sessions and plans)
-

EDUCATION

- **School/College Name:** Barking and Dagenham College
Degree or Course – 2024 Relevant Coursework: Diploma in Information Technology
- Studied advanced math topics independently
- Currently improving coding skills (HTML, CSS, JavaScript, React)

PROJECTS

- Calculator website
- To-do website
- Personal Portfolio website
- Stopwatch website

EXPERIENCE

Internship – HNG internship | 2025 – Present

- Joined a frontend internship,
- Developed skills such as teamwork, communication skills, being organized, got an experience in web development.

GWC – Girls Who Code Alumni | 2024

- Gained valuable insights into software development, problem-solving, and leadership.
- Being part of this community has strengthened my coding skills and connected me with other passionate female developers working to make a difference in the tech industry.

CERTIFICATIONS & ACHIEVEMENTS

- Certificate of being a finalist in math competition – IYMC math competition (2025)
- Responsive Web Design – Freecodecamp
- Introduction to Data science badge – Cisco Networking academy

- Certificate of completing the Girls Who Code summer immersion program.
 - Certificate of completing an Introduction to p5.js and game design course.
-

HOBBIES AND INTERESTS

- Software Development
 - Cybersecurity
 - Artificial Intelligence & Machine Learning
 - Teaching & Educational Content Creation
 - Entrepreneurship
 - Data Analysis
 - Solving logic puzzles
 - Teaching and mentoring
 - Coding and tech projects
 - Baking and making cute crafts
-
